

India to host its own Gaming event: India Gaming Show 2017 from 2 February 2017 at Pragati Maidan, New Delhi

With a largest young population structure and growing gaming culture, Indian gaming industry has huge future prospects.

India moving forward will have its first own comprehensive event on Gaming industry and be launching India Gaming Show this February 2017 in its capital, New Delhi. The event India Gaming Show organized by Confederation of Indian industry and supported by Ministry of Electronics, Information and Technology will open up new paths to this still young market for Gaming Companies across the globe. Encompassing all the segments of Gaming sector the event will have Video games, Consoles, Mobile Gaming, VR experience, Cosplay, for Indian Gamers and Business, networking & partnering Opportunities for the developers community.

Spread across 6000 sqmts the event will have more than 50 exhibitors from around six countries with "Japan" as Partner Country and "Korea" as Guest Country. Supported with number of activities, the event will also have an exclusive showcase of latest technology and products for professional gamers.

As the lead partner of the event, Japan is bringing along a whole host of activities which are aimed to invigorate the Indian gaming scene. Leading Japanese developers such as SEGA, Konami, Square Enix, Namco will provide visitors with a unique insight into the latest of what each developer has to offer. This will definitely prove to be an indispensable resource for Indian game developers. Also on showcase shall be various innovative technologies such as Virtual Reality and Artificial Intelligence. The visiting crowd will be treated to various performances ranging from anime, music, and TV media that are sourced from Japanese pop culture. A special Cosplay competition is being organised by Japan with winners to be hosted to the Tokyo games Show from India for the first time ever.
